OBJECTIVE

Computer Science (AIML) student with strong skills in Java, Python, Spring Boot, REST APIs, databases, and software development, with hands-on experience building secure and scalable full-stack applications. Seeking a Software Development Engineer Internship to apply problem-solving and backend development skills while contributing to real-world products.

EDUCATION

SR University, Warangal (2023 – 2027) – B.Tech in Computer Science (AIML), CGPA: 8.95/10.0
New Vision Junior College, Khammam (2021 – 2023) – Telangana State Board, Percentage: 97.6%
ST. Francis School, Madhira (2021) – Telangana State Board, GPA: 10

PROJECTS

Banking Management System | Spring Boot, React, PostgreSQL | 2026 GitHub

- Built a secure full-stack banking application with Spring Boot and React, implementing JWT authentication, password hashing, and REST APIs for accounts, transactions, and fund transfers.
- Integrated PostgreSQL using JPA/Hibernate and implemented search, filtering, pagination, transaction processing, and CSV export.

SplitEase – Smart Expense Splitter | Node.js, Express.js, NeDB | 2026 GitHub

- Built a full-stack expense management application with REST APIs for users, groups, expenses, settlements, and balances using Node.js/Express.js.
- Implemented automatic balance calculation, settlement tracking, search/filtering, and spending analytics using Chart.js.

PrepSphere – AI Mock Interview Platform | Generative AI | 2026 GitHub

- Built an AI mock interview platform using Groq LLaMA 3.3-70B for company-specific question generation, speech-to-text answering, and interview evaluation.
- Developed adaptive scoring, personalized feedback, performance analytics, and webcam-based confidence tracking using Firebase Authentication and Firestore.

INTERNSHIPS

Java Virtual Internship, AICTE – Warangal, India (Jan 2026 – Mar 2026)

- Gained hands-on experience in Core Java, OOP, Collections, Exception Handling, and application development through practical projects and programming assignments.

Google AI-ML Virtual Internship, AICTE – Warangal, India (Jul 2024 – Sep 2024)

- Completed a 10-week internship covering machine learning fundamentals, predictive modeling, data analysis, and model evaluation through hands-on projects.

TECHNICAL SKILLS

Languages: Java, Python, SQL
Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Software Engineering & System Design
Backend: Spring Boot, REST APIs, Node.js, Express.js
Frontend: React, HTML, CSS, JavaScript
Databases: PostgreSQL, MySQL
Software Practices: Agile, Scrum, Software Testing, Debugging
AI/ML: Machine Learning, Generative AI, scikit-learn, Pandas, NumPy
Tools: Git, GitHub, Postman

CERTIFICATIONS

Microsoft Certified Azure AI Fundamentals – Aug 2025
Google Cloud Generative AI Leader Track – Nov 2025
AWS Academy Cloud Computing – Nov 2025
